North Vancouver District Public Library
Pay transparency report

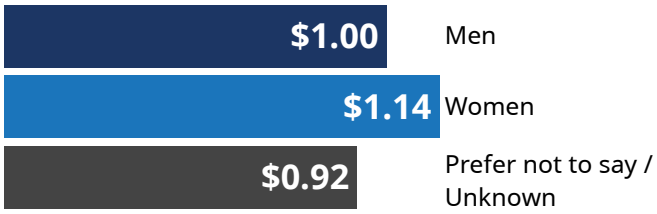

The North Vancouver District Public Library invited staff to voluntarily provide gender information and consent for its use in the development of this Pay Transparency Report. Due to staff turnover we were only able to collect the gender information from our current active staff. As a result, the accuracy and representativeness of the findings is limited and the data collected does not fully reflect all employees across the organization throughout the full year. Of the total number of employees included in this report, 40% had their gender survey responses included.
